

Emergency Closure Procedure

With the onset of winter weather on the horizon please find detailed below the procedure for an emergency closure of the school:

If a decision is made to close school prior to the start of the school day parents will be notified via a text message. The school's website will be updated with detail of the closure as well as the Gloucestershire County Council schools' closure page <http://www.gloucestershire.gov.uk/closures/> Please check this link on a regular basis for updates. Local radio stations will also announce closures. Subscribe to the GCC Twitter feed @Glos_schools for text alerts.

When school is due to re-open parents will be notified via an email and the school website, GCC page and GCC Twitter feed will be updated accordingly.

If school is forced to close during the school day for any reason again parents will be alerted to this via a text. Any pupils who walk home will be allowed to leave the school site at the time of closure. School buses will come and collect pupils to take them home via the normal bus routes (weather dependent). If you wish for your child to remain on the school site to be collected please notify the school office as soon as possible.
